Wind Energy And You

Fort Peck Community College (FPCC) and Montana State University-Bozeman (MSU) are working together to provide information on Wind Energy Production to farmers, ranchers, tribal college extension and county extension agents throughout Montana. The primary goal of this project is to provide agricultural producers and entrepreneurs with the knowledge, skills, and tools needed to make informed decisions about Wind Energy production that will significantly enhance their financial performance.

Registration: Enrollment in the workshop is limited, so it is important to register by the deadline of March 30, 2009. The conference will be held at the Fort Peck Community College Greet the Dawn Auditorium, in Poplar, MT.

Lodging: Accommodations are available at the FPCC Dormitory at a rate of \$30/night. For reservations, please contact Tom Black Eagle at 406-650-6320.

Meals: Lunch will be provided the day of the conference.

MSU Professors have designed a curriculum that will provide workshop participants with the knowledge, skills, and tools necessary to assist American Indian producers in making informed risk management decisions for their specific operation.

FPCC/ Ag Staff

Carrie Sue Archdale: Program Director

Chris Martinez: Program Director

Tori Moran: Program Director

MSU Staff
